--- A FIRM HAND ---

(An Editorial)

As the time for the May primaries draws nearer, events in our state and nation make it even more obvious than before that Preston Smith must be elected governor of Texas.

Preston Smith has had experience in state government — 18 years of it.

He served six years in the State House of Representatives and then went to the Texas Senate for a like number of years. He has presided over the Senate as lieutenant governor for the past six years and there has been very little said, even by his opponents, to challenge his past record.

As lieutenant governor, Preston Smith refused to bow to anyone, regardless of the power arrayed against him. I believe he will pursue the office of governor with the same integrity.

Texas faces some grave challenges in the future. I believe Preston Smith is experienced and capable enough to meet those challenges.

Also, we may have some long hot summers ahead of Texas cities. I believe Preston Smith will deal firmly with any threat to law and order in this state.

Preston Smith is a winner. A Houston Post poll last week end gave Don Yarborough 27 percent of the Democratic vote and Smith 23 percent. Eugene Locke trailed with 17 percent and Waggoner Carr was a poor fourth with 12 percent.

This would indicate that Smith will be in a run off with Yarborough who will poll most of his strength in the first primary. If this is true, Preston Smith will be the next governor of Texas.

I believe that with Preston Smith in the governor's mansion, Texas will be in good hands for the next two years.

Phi Delta Theta Has Collections For Heart Fund

Members of Phi Delta Theta, social fraternity at West Texas State University, collected \$290 for the Heart Fund during a bucket brigade in Amarillo Saturday.

While some of the members were collecting the Heart Fund money in Amarillo, others in the fraternity spent the day in Tulsa painting and repairing a children's nursing home.

The work at the nursing home will aid administrators in obtaining an operating license.

Work by the WTSU Phi Deltas was part of their national fraternity's 14th annual Community Service Day.

Parties Set Vote Places

Voting places for both the Republican and Democratic primaries in Randall County have been announced.

Only change made this year over last, said Randall County Clerk LeeRoy Hutton, was in the Democratic primary. A separate balloting place for precinct number five was established this year at the Kenneth N. Hood home, Farm Road 1151. Previously precincts five and six in the Democratic primary have voted at the Gene Howe Elementary School.

Those places designated as voting places for the Democratic primary May 4 will include 1, Rex Reeve Elementary School; 2, Jewell Schoolhouse, west of Happy; 3, Ralph Switch, 10 miles south of Canyon on US Highway 87; 4, Fairview Community Hall, east of Happy; 5, Kenneth N. Campus Speaker Lauds Red Cuba

A Texas Panhandle man who boasted that he made an "illegal" trip to Cuba last February is still at large.

Dick Reavis told a Sandwich Seminar in the Student Union Building at West Texas State University that the reason he was not arrested was because "the system uses me—they get new ideas from me."

Reavis, a journalism student at the University of Texas who gave his home address as Port Lavaca, told his WTSU listeners last Wednesday noon (April 17) that among the new ideas espoused here was that of equality.

"Even President Johnson has been standing on that idea," Reavis said.

A member of his audience of some 50 persons suggested that the idea of equality went back to Jesus Christ.

Reavis, who is in his mid-20's, said, "That's right, Jesus was a Communist—an unscientific one, but a good one."

The exchange occurred after Reavis had held forth for an hour on Cuba, which he called "the Garden of Eden," and the United States, which he termed "an imperialist position."

Hits Legality

Question Raise

Republican candidate for county judge, C.N. Cosby, Monday questioned the legality of the recent county commissioners' vote to raise the salary of County Judge Carroll Brown.

Brown is Democratic candidate for the post to which he was appointed two months ago.

Cosby submitted a letter to the court questioning the validity of the raise. The letter was submitted to members of the court Monday but was not read in open court as is most correspondence.

Text of the letter follows: 2713 9th Avenue Canyon, Texas April 22, 1968

ARTICLE 3912i Sec. 15 of 1967 Pocket Part to Vernon's Revised Civil Statutes of the State of Texas

The Commissioners Court in each county in the State is hereby authorized to increase the maximum compensation of each officer enumerated in this Act, as amended, in an additional amount not to exceed twenty percent (20%) of the maximum sum authorized by said Act, as amended; provided that no increased compensation shall be authorized pursuant to this Act except at a regular meeting of said Court following publication of notice at least two times, one time a week, in a newspaper of general circulation in such county, of the salaries intended to be raised at such meeting and the amount of such proposed raise.

Bob Price Talks To WT Students

Bearing heaviest on the war in Viet Nam, Congressman Bob Price Friday discussed problems facing the United States with some 400 students and faculty members at West Texas State University.

Price said there are two ideologies in the world. He said one is dedicated to communism and enslavement and the other to the cause of freedom.

He pointed out that Russia has always been aggressive and that because of her 16 nations have been placed under communist dictatorships since World War II.

"The people in these countries still love freedom as much as they did before they were captured," he declared.

He likened the path to Viet Nam to a chess game. "They (Russia) probe and we react," he said. He said this country has not been idle in the past 20 years. "We have built an arc around China until they can learn to live in peace," he declared.

Price drew applause when he said the way of freedom has never been easy. "It has always been fought for," he told his audience. (See PRICE, page 11)

Randall Taxes Hiked

Move Net \$100,000 In New Tax Monies

Action that will raise the percentage of taxable valuation in Randall County from 12.5 per cent to 15 per cent was approved by commissioners in a regular session Monday.

The move, which will net an estimated \$100,000 annually to the county coffers, was followed by action that would begin suits against those owing delinquent taxes in Randall County.

The need for additional revenue was discussed at length by the commissioners who unanimously decided on the valuation hike and tax suit action. Bill Money, county tax assessor-collector, presented figures from 1963-1966 which

indicate 80 per cent of collections for the average of the four years would be \$21,544.

George Dowlen, district attorney, was instructed to begin action on the suits after May 1, 1968. Dowlen must first inform those owing delinquent taxes by registered letter.

No action was taken by commissioners on a request from Sheriff L.S. (Slim) Johnston that his salary be raised to the maximum limit.

The sheriff told reporters his request was prompted after action by the commissioners last week that raised County Judge Carroll Brown's salary from \$8,780 to \$12,780.

"I don't think they (commissioners) should hold it against me just because I've been here longer than two months," Johnston told reporters.

Brown was employed about two months ago to fill the vacancy of P. H. Malloy who resigned.

In other business commissioners briefly discussed the US Supreme Court ruling that each county be divided equally, but took no action.

The district attorney said Midland County, where the question originated, would receive guidelines from the court as to reapportionment. He (See HIKED, page 11)

Pre-School Orientation Is Tuesday

Parents with children who will begin first grade at Rex Reeves Elementary School this fall will meet Tuesday, April 30, at the school's all-purpose room for an orientation program.

Enrolling students will be taken to the classrooms by the teachers and parents will have a preparation-for-school program in the all-purpose room. School superintendent, Jerry Jacobs, will speak to the group on general activities of the schools. Mrs. A. B. Holt and Oscar Hinger, principal, will discuss phases of preparation for beginning students and Kaye Stanley, school nurse, will discuss health preparations.

It has been requested that both parents attend the orientation Tuesday.

Pre-school day at Gene Howe Elementary School will be Wednesday, May 1, at 1:45 p.m., according to Luther Lawless, principal. Parents are urged to attend.

Local Red Cross Conducting Drive

A house-to-house drive to solicit funds for the Randall County Chapter of the American Red Cross will begin here Friday at 7 p.m., according to Jerry LaGrone, local chairman.

Members of the local organization will be aided in the drive, LaGrone said, by the Boy Scouts of America, and volunteers from Phi Epsilon Kappa, physical education fraternity at West Texas State University.

The fraternity will also sponsor a "sock hop" at 8 p.m. in the WTSU gymnasium Friday. Admission will be a donation for the Red Cross drive.

LaGrone said funds from the

drive would aid the families of servicemen and those injured in the Vietnam and Korean conflicts.

Statistics from the American Red Cross indicate 1968 campaign financial requirements will total \$57,286,800 for the national organization and \$65,837,200 for the 2,966 chapters for a total of \$123,124,000.

Dean Bigham is president of the WTSU physical education fraternity.

Members of the local Red Cross conducted an advanced gifts drive Tuesday and Wednesday here, with about eight volunteers participating.

Vote Date Set For Bond Issue

A bond issue election, which will provide \$1,350,000 for construction of a new Canyon Junior High School building and air conditioning of Rex Reeves Elementary School, was officially sanctioned by school board trustees Monday for May 18.

Petitions signed by 134 more than the necessary 20 qualified voters in the school district were presented to the trustees.

A report from Bob David, representing Columbian Securities, shows the average annual debt service requirement to be \$279,022 and that a 58 cent tax rate at 95 per cent collection would produce \$281,444. Annual debt requirement for the fiscal year ending Aug. 31, 1969 would be \$277,932 and a 58 cent tax rate at 95 per cent collection produces \$281,444.

The total debt, which is to be paid in about 18 years and including the proposed issue, would be \$3,618,000.

Davis earlier said an increase of about 20 cents per

\$100 valuation would be necessary to retire the bonds on a 19-year basis. Presently \$3,588 cents of the school's levy is required to retire outstanding bonded indebtedness.

Present taxable valuation in the school district is \$51,000,000 and the new issue would place bonded indebtedness of the district at about 6.98 per cent of that figure. The legal limit is 10 per cent and present indebtedness of the school district is \$2,268,000.

A. L. Crossland will be election judge at the American Legion Hall here and Bill Harp (See VOTE, page 11)

'Ole' Features 'TEXAS' Show

"TEXAS", Panhandle Heritage Foundation-sponsored musical drama in Palo Duro Canyon State Park each summer, is featured in the April 6 issue of "Ole", Tucson Daily Citizen magazine.

The story, written by the magazine editor, Dan Pavillard, a former West Texas State University instructor, is accompanied by pictures of the cast, Palo Duro Canyon, and Edward Thomas, one of the stars in the show.

Pavillard, who told another instructor at WTSU after the project was explained to them that it had "not a chance for success", notes the publicity given the musical drama since it began.

"If you should see Mrs. Harp there," Pavillard concludes, "tell her I sent you. And tell her, too, I knew she had a winner there all along."

License Sales Figures Told

Randall County will receive \$175,000 from the State of Texas for the sale of license plates this year, plus a total of \$11,777.90 in commissions.

The total figures, released recently, show 20,811 passenger tags; 3,084 commercial; 962, farm; 169, tractor trailers; 146 house trailers; 253 motorcycles; 1,511 boats; and all other trailers, 195.

The county here receives the guaranteed \$175,000 plus the commission for additional sales of license plates.

CANYON HIGH SCHOOL land judging team for the Future Farmers of America was named first place in Area I contests held here last week end. The group will compete in the state contest at Stephenville today. They will be in competition with 49 other teams from throughout the state, seeking a trip to the national contests in late May. CHS team members are Kyle Sunderman, seated left, Bob Gruner, seated and standing in back, Ronald Hartman, left, and Mike Trammell. At the contest last Saturday, Sunderman was high individual with 205 points while Gruner was second with 193.

Congressman Bob Price is shown here chatting with a constituent, Miss Judy McNeil, Canyon, a junior English major at West Texas State University. Price talked with Miss McNeil

while at WTSU on a speaking engagement last Friday. Miss McNeil was asked if she were going to vote for Price. "I sure am," she replied.

FROM THE

CANYON RIM

The raise in the judge's salary has caused a furor. It will no doubt be an issue in the upcoming election in November.

I think the people's acceptance of the raise will depend a lot on how the office of county judge is conducted between now and election time.

I do not think that \$12,780 a year is too much to pay for a competent, full time judge. I do think it is too much to pay for a part time judge.

It seems to me that a lot is up to Judge Carroll Brown in setting a precedent on how the office will operate. I think Randall County is now paying for a judge on an 8 to 5, five-day week basis.

I was a strong proponent of a raise in the salary for the office. If the county does not get an 8

to 5 judge, this column will be the first to declare that the county is not getting its money's worth.

...

It looks like the nation's capital will be tied up by a "poor people's march" next month. If you want to learn the sinister overtones read "Martin Luther King's March On Washington" in the current issue of Reader's Digest.

Dr. King is gone but his successor, Rev. Ralph Abernathy, plans to lead the march anyway. Plans call for it to be made up mostly of Negroes. The Digest says the group will ask for an additional \$20 billions a year to be poured into the nation's ghettos.

"Taxpayers are already paying out some \$25 billion a year, more than ever before, for welfare, poverty and job training programs," the article says.

According to the Digest, the plan is to completely immobilize the capital. Streets are to be clogged with human barricades. Offices are to be filled

LETTERS TO EDITOR

Dear Editor:

About two weeks ago you carried a letter from Dr. Hubert Oppe in which he intimated that America in general and Canyon in particular is unfair in its treatment of Negroes.

He blamed all Americans for the death of Dr. Martin Luther King. The American people actually had nothing to do with the murder of Dr. King.

Dr. Oppe indicated that America, where minority races enjoy the greatest opportunities on the face of the earth, should

Diplomat-In-Residence On WT Campus May 2

Ambassador Robert C. Strong, currently on leave from the State Department as Diplomat-In-Residence at the University of Oklahoma, will open a three-day stay on the West Texas State University campus May 2.

Brought to the WTSU campus by the history and government departments, Ambassador Strong will lecture to classes, conduct graduate seminars, interview students interested in foreign service, and speak to campus organizations.

He will speak at a public meeting at 7:30 p.m. May 2 in the Student Union Ballroom. His topic will be "The United

States in Asia."

Just prior to being "on loan" from the State Department to the University of Oklahoma, Ambassador Strong served as U. S. Ambassador to Iraq from 1963 until that country severed diplomatic relations with the United States in 1967.

Ambassador Strong was appointed to the U. S. Foreign Service in 1939 after graduating "magna cum laude" from Beloit College, where he was a Phi Beta Kappa. He did a year of graduate study at the University of Wisconsin. His early overseas diplomatic assignments were in Frankfurt, Germany, Prague, Czechoslo-

vakia, and the Union of South Africa, Mozambique, and in Sofia, Bulgaria.

From 1947 until 1950, Ambassador Strong was assigned to posts in Tsingtao, Canton, and Chungking, China, and Taipei, Taiwan. For three years he served in Washington as a special assistant to the Director, Office of Chinese Affairs.

From 1954 to 1958, the Ambassador was posted to the American Embassy in Damascus, Syria, and in 1961, he became Director of the State Department's Office of Near Eastern Affairs. He was appointed by the President in June 1963 as the Ambassador to Iraq.

Ambassador Strong is the holder of the State Department's Superior Service Award and the National Civil Service League's Award for distinguished career service. In 1967, he received an honorary Doctor of Laws degree from Beloit College.

Pioneer Life Depicted In Panhandle Plains Museum Display

by WAYNE BOARD

Pioneer life may have had its drawbacks, but a look at the early days as seen through a special display in the Panhandle Plains Historical Museum indicates more conveniences were available than many people might imagine.

Boone McClure, head "wrangler" of the large museum collections, has been assembling a pot pourri of items indigenous to the 1875-1900 era for some number of years, but, until recently, no area has been available at the museum in which to properly display the collection.

With a recent addition to the museum complex came the opportunity for McClure to dust off the collected items and establish what he has entitled "Pioneer Village"—a pioneer village that reeks of authenticity.

Many of the articles in Pioneer Village have been in storage for a number of years, McClure explained, and some were sought especially for the display that is yet to be completed.

One feature of the display is a house that is complete with a kitchen, two bedrooms and a parlor.

The pioneer woman, the display indicates, prepared the family meals in a large wood-burning stove and served the edibles on a table covered with a large oiled cloth.

"It looks like plastic," said Mrs. Faye Crain, archivist for the museum, "but actually it is an oiled cloth." Also on the table is a pat of butter which was molded with a flower-leaf design.

While the lady of the house was preparing the meals she probably was also busy using a dash-type churn to make more butter.

After the meal was completed, mother washed the dishes and placed them upside down on the table awaiting future feasts. The food that was left, however, was placed in a cabinet device called a "safe".

The "safe", Mrs. Crain explained, had a wooden frame and metal siding with holes to allow the food to have air. Inside the "safe" are two Ball

canning jars, one of which has a glass lid.

When the head of the household arose in the morning, he headed for the kitchen to shave. The display in McClure's village features a wooden bench on which the razor and a large wash basin was placed.

One of the village home bedrooms has a trundle bed which was donated to the museum 25 years ago by W. E. Haile of White Deer.

"He (Haile) drove up one day with the bed on his truck and asked if we'd like to have it," McClure noted. "We didn't even have to go and get it."

Also featured in the bedroom is a dresser which came from the Charles Goodnight home and a clothes closet that was not built into the wall as most are today.

Another bedroom contains a fold-down bed, a spinning wheel, yarn wrapper and a White sewing machine. The sewing machine, which has a detachable wooden cover, was donated to the museum from the estate of the late Mrs. M. B. John-

churches here at that time. In April 1923, the organ was presented to the museum by the Sunday School and Ladies Society.

A general store in the village, which has not been completed, features a variety of household items no self-respecting pioneer family could do without.

Among those items which were available to the early-day shopper was Henderson Foot Warmer, detachable collars for men's "Sunday-go-to-meet-in" shirts, large plumes for even larger picture hats for the ladies, and metal molds to be used in making candles.

Along with a variety of crackers, cheese, salt pork, beans, lye for making soap, dried fruit and flour, the head of the pioneer household could purchase Drummond Natural-Leaf Tobacco, Brown's Mule tobacco, Pastime Plug Tobacco which was called the "Essence of Excellence", or Train Master Cigars, described as "A real mild cigar for five cents".

McClure said a box which once contained Union Leader "Cut Plug" tobacco was borrowed from the museum for display at HemisFair '68 in San Antonio this year.

Chewing gum, which was probably somewhat of a luxury in the early days, was first wrapped in aluminum foil then regular paper.

This packaging was changed during World War I, McClure explained, when the gum became indeed "gummy" while being shipped across the ocean to the troops.

As for the bar which McClure is preparing, featured on one wall is a calendar from the Windisch Muhlhauser Brewing Company of Cincinnati, Ohio. Featured on the elaborate calendar is a picture of a rather portly matron.

Also on display is an engraved pot which was used to dispense pretzels to the bartender's thirsty patrons.

The bar itself, which was donated by Mrs. Jane Patching Beckett of Goodnight, Tex., has a history all its own.

McClure explained that the bar was originally in Boshers' Saloon in Clarendon, which was at the time a Methodist Colony.

The Methodists, unable to stop the sale of alcoholic beverages by Boshers, called Col. Goodnight from Armstrong County who closed the saloon for them.

A bank, featuring facilities used in Panhandle from 1907 until 1942 when the enterprise closed, was donated to the museum by Frank Pauls, Sr., former head of the Amarillo National Bank.

McClure said the bank facilities, which include ink wells, a roll-topped desk and windows for drafts, cashiers and tellers, were purchased for \$607 originally.

The bank, he said, was one of the few in the United States that had no affiliation with either the state or federal government.

When a member of the household became ill and lived close enough to town, the ailing one was taken to the doctor's office.

To be found in the office were such drugs as calomel and soda, Mellin's Food "for infants and invalids", a bottle of Belladonna Leaves which contained 48 per cent alcohol and "Highwood's Prescription".

The label on the latter bottle says the tonic has been "known for 35 years as Highwood's Old Indian. Not a patent medicine, but registered by a Cherokee Indian".

The bottle of Highwood's Prescription sold for \$1 and the label featured a picture of a genuine-looking Indian.

The doctor's chair, which could have also been used by a dentist, was used by I. T. Smith of Higgins.

Smith, McClure explained, ordered a new chair and moved his old one to a nearby buggy shed.

"He used the new one for three days," McClure laughed, "then he brought the old one back out and put the new one back in the buggy shed."

Clyde Warwick, former publisher of The Canyon News, either purchased or had used most of equipment in the village newspaper office.

A Linotype machine, which Warwick thought he had purchased from the Morganthaler Company in Almodoro, N. M., was actually leased.

"We had to certify each year for a long time," McClure said, "that the Linotype wasn't being used for anything other than a display. Finally they gave it to us, so really Clyde and the company both gave it to us."

On display in the news office is an 1887 edition of the Panhandle Herald. The Herald had six columns of type, the middle two being used for advertising.

First edition of the Amarillo Champion in 1888 noted the reader could subscribe for \$1.50 per year to "become a stockholder in its utterances".

Dedication of the Champion, the first edition said, was "Amarillo first, Potter County second, the Panhandle third, Texas fourth and not sayeth further".

One look at the village jail, which was probably sufficient to deter any would-be bad guy, shows the walls adorned with five sets of brass knuckles, rifles, handcuffs and knives.

The large jail doors, which

75 per cent have been on display before the museum annex was built.

"This village has attracted a lot of attention," McClure said proudly. "Everything is

just in a different setting—it just shows the value of a good display."

PIONEER VILLAGE DISPLAY in the Panhandle upside down after meals were served. In Plains Museum includes this kitchen used by the background is a "safe" used to store many pioneer women. The table is covered leftovers, with an oiled cloth and plates were turned.

AN ANTIQUE ORGAN, used here and later donated to the Panhandle Plains Historical Museum, is one of the many items on display in Pioneer Village. Examining the organ, which cost the First Presbyterian Church here \$75, is Boone McClure, museum director.

The parlor, where most of the family social life unfolded, is complete with a stereoscope for viewing Keystone slides, a bound family album and a morning glory record player.

Pictures of Judge and Mrs. Arthur B. Duncan, first settlers in Floyd County and parents of A. B. Duncan of Canyon, grace the parlor walls. An inscription under the pictures note that Judge Duncan, 1862-1931, was on the bench in Floyd County in 1890.

Also in the parlor is an organ which was purchased in the summer of 1897 from the Farr and Votey Company of Detroit, Mich.

The organ, according to Mrs. John Knight, was purchased at a cost of \$75, which included transportation from Michigan.

T. D. Coffee and son placed the organ in the Randall County Courthouse as there were no

came from Old Tascosa, were at the museum in 1941 when McClure took charge.

The sheriff's desk, McClure said, was used by Sam Dunn who, in 1887, was appointed hide and animal inspector of Potter County by Gov. Sul Ross.

Records used by Dunn were kept in Frank Anderson's saloon on Polk Street in Amarillo for a number of years.

A blacksmith shop, which lacks a heavy wooden barrel McClure has been unable to obtain, does contain a drill, anvil, horseshoes, harnesses and a set of homemade bellows which were made in England before 1850 and donated to the museum by T. A. Robinson.

A barber shop, which is designated by a sign on the door which reads "Tonsorial Parlor", contains a complete line of shaving mugs, brushes and clippers. Another door advertises "Bath, 25 cents".

The desk on display in the village law office was formerly owned and used by Judge J. N. Browning, lieutenant governor of Texas from 1898 to 1903.

A gavel on the desk was made from a window sill in the office of General Sam Houston in Huntsville.

A log cabin from the Goodnight Ranch and a ladies dress shop will also be on display when items become available.

Top Awards Presented At WT Sports Banquet Here Tuesday

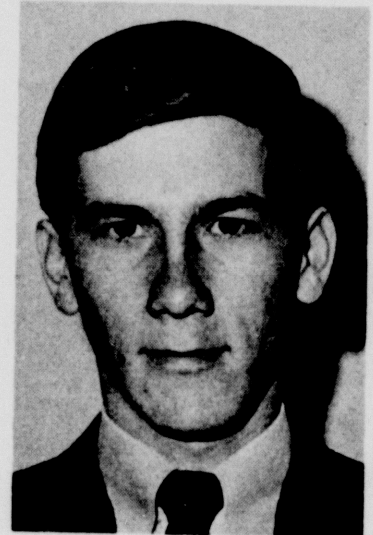

BY JOHN GARMON

West Texas State University's annual banquet honoring athletic teams of 1967-68 drew a crowd of 350 last Tuesday night—a disproportionate attendance compared with the thousands of fans various athletic contests have attracted during the present school year. The event was held in WTSU's east dining hall.

The coveted Kleinschmidt Award for most valuable players in varsity football and basketball went to senior split-end Dave Szymakowski and WT's record-breaking basketball star, Simmie Hill. The award, bestowed upon West Texas State athletic greats each year since 1936, was presented by J. Wesley Kleinschmidt, Canyon businessman.

The President's Award was presented to senior defensive end Jimmy Campbell, a three-year letterman in West Texas gridiron action. Dr. James P. Cornette made the presentation, citing Campbell for fulfilling the qualifications of citizenship, leadership, loyalty, cooperation, improvement in ability and general attitude—all established prerequisites for each year's recipient.

The Canyon Rotary Club's Fighting Heart Award went to sophomore cager David Cole

DAVID COLE

for his outstanding contribution to Buffalo varsity basketball. Tom Black, President of the Canyon Rotary Club, gave Cole his trophy.

Both Kleinschmidt Award winners came to WTSU from Pennsylvania. Szymakowski, of Bethlehem, Pa., holds an all-time West Texas pass-receiving record of 102 catches for 1,588 yards and 12 touchdowns.

Simmie Hill, a 6-6 junior, is from Midland, Pa., bulwark of this season's respectable basketball campaign, the tall

Buffalo broke a long-standing record for total points scored in one season. Hill's 573 points outdistanced Price Brookfield's 1941-42 season mark of 542. Hill, former junior college All-American, was named as an honorable mention choice on all four of the major All-America polls for 1967-68. These were AP, UPI, NEA, and Sporting News.

Hill just missed another Brookfield record this year when he scored an individual high of 42 points against Centenary. Brookfield's high mark of 44 points was tallied in 1942 in a game against New Mexico State.

Szymakowski, as a junior in 1966, caught 59 passes for 842 yards to rank 11th nationally in receiving. His most sensational performance came in 1965 when he caught a record of eight passes for 183 yards against Texas Western. Then in 1966, he shattered both previous records by catching 13 passes for 219 yards in a contest with University of Pacific. Szymakowski also holds the WTSU record for most career touchdowns for a receiver with 13 and most scoring receptions in a season with six. The 6-2, 195 pound speedster was a third round draft choice of the newly-formed New Orleans Saints of the National Football League.

Simmie Hill was the main cog in WTSU basketball's 1967-68 comeback machine. He ranked among the nation's top 10 scorers throughout the season and finished seventh nationally with a 27.3 scoring average. He also led West Texas rebounders with an 11.2 average. Next season Hill is expected to be even more productive with Coach Dennis Walling's addition of several top junior college players plus a strong returning nucleus from the 1967-68 team.

Jimmy Campbell, recipient of the President's Award, was also named captain of the 1967 Buffalo football squad during Tuesday's All-Sports Banquet. Campbell is from Odessa.

Senior tight-end Dan Andrews of Los Angeles, Calif., was cited as honorary captain of the squad. Captains are selected by popular vote of teammates.

Campbell was named to the 1966 All-Texas team. The 6-2, 215-pounder was also named to the 1967 Little All-Phi Delta Theta team for the second straight year and he earned a second berth on the major college All-Phi defensive team. Campbell was drafted by the

San Diego Chargers of the American Football League.

Norvall Neve, commissioner of the Missouri Valley Conference, was the featured speaker for the All-Sports banquet. Neve, of Kansas City, Missouri, emphasized the importance of intercollegiate athletics in his address.

Commissioner of the Missouri Valley Conference for the past 11 years, Neve said, "Our nation's leaders come from the healthy competition of intercollegiate athletics."

"We should not de-emphasize intercollegiate athletics," he said, "but expand and improve the scope of such programs."

Other West Texas State athletic participants receiving recognition at Tuesday's ceremonies were the university's track team, golf team, baseball team, tennis team and rifle team.

Members of the WTSU track squad are Wayne Adams, Ralph Anderson, Troy Anderson, Dougbert Azam, Aaron Banks, Dee Batts, Raymond Brown, Gary Clark, Billy Lantow, Eugene Morris, Albie Owen, Roland Reichardt, Jene Richardson, Duane Thomas, and Curley Walters.

Buffalo golfers are Tommy J. Barrow, Kenneth D. Caldwell, William E. Rice, Bobby Caldwell, and Dennis Ray Porter, Jr.

WTSU tennis team members are Kitpot Charnevje, Jerrel M. Simmons, Jerry Lynn Mannings, Ronald Joe Jopling, and Jack G. Hanna.

Members of the 1967-68 WTSU baseball squad are Aaron N. Bourland, Terry H. Burkhalter, Roy D. Burrell, Gary Culp, Mike W. Hicks, Larry Dean Huff, Mike B. Mitchell, James M. Moffatt, Richard L. Pirtle, David Raimier, Dennis Riley, John Rukledge, John Sorrell, Mark Vinson, Don Watkins, Gary S. Wheeler, and Johnny B. Williams.

WT's rifle team, coached by Captain George Plankenhorn, consists of Bill Dovers, Jr., Steve P. Downing, Howard M. Denton, Ricky S. Deaty, Carlos A. Tedrosa, C. J. Mitchell, James C. Wheeler, Gene D. Watkins, Alfred D. Rodriguez, Jerry N. Ingram, and Burney D. Wells.

Rather than naming honorary captains for the past season, the Buffalo basketball team chose juniors Simmie Hill and Mike Mitchell as co-captains for the coming season. Mitchell, of Roswell, N. M., was the Buffs' second leading scorer last year with an 18.9 average. He led the team in field goal accuracy, connecting on .531 per cent of his field goal attempts from a guard position. Many of Mitchell's shots were from 25 feet or more distance from the basket.

Master of ceremonies for the annual sports fete was Pampa radio man Warren Hasse who announces play-by-play action for Buffalo football games carried live on KGNC Radio in Amarillo.

Entertainment for the banquet was by Mrs. H. R. Fulton of Canyon. She sang selected songs to piano accompaniment.

WTSU head football coach Joe Kerbell introduced his coaching staff and recognized the different varsity players of this season's and next year's teams. Head basketball mentor Dennis Walling introduced his staff and team members. Invited guests included WTSU's Athletic Committee, Student Council members and representatives of

area press, radio and television.

Mitchell Jones gave the invocation at the beginning of the evening's festivities.

said authorities in Midland County would probably receive the guidelines in "a month or two."

"Well," said Commissioner Glenn Dowlen, "we're thinking about it anyway."

Bill Francis, auditor for the county, recommended to commissioners the need for streamlining operations in the District Clerk's office—thus possibly eliminating the need for additional clerks.

Explaining that the district clerk's office handled \$337,000 in child-support checks and that those checks must be held until cashed at the bank, Francis said the commissioners might consider the purchase of a check signer.

In other action commissioners approved a \$2.25 per \$100 valuation tax rate for the Randall County Common School District and approved expenses for Woody Pond, juvenile probation officer, to attend a Juvenile Officers School May 6-10 in Andrews. The school is being sponsored by Texas A & M University.

New Highway Construction Is Announced

Texas Highway Department announced a new highway construction project beginning near the South City Limits of Canyon South to the Swisher County Line.

The construction will consist of cement stabilized base, asphalt stabilized base and asphalt concrete pavement.

Texas Highway Department and the contractor Gilvin-Terrill Inc. of Amarillo, stated that the construction will begin on April 22, and will be completed by June 20, 1968. William V. York, Supv. resident engineer of the Texas High Department in the Canyon area explained that traffic will be routed through the project.

York pointed out that barricades and warning signs will be prominently displayed, but motorists should exercise extreme caution in passing through the area. Cooperation of the public is urged.

CHS Concert Is Friday

A popular music concert will be presented Friday night at the Canyon High School auditorium by members of the CHS choir.

Admission will be 50 cents for students and \$1 for college students and adults. Proceeds will be used for the choir uniform fund, according to Miss Linda Adams, director.

Assisting Miss Adams with direction of the choir will be Mary Ann Wheelock, Jo Ella Cansler and Jan Word.

Performing will be the Mixed Choir, boy's choir, girl's choir, and soloists, Ric Wilson, Alicia Boone, Karla Jordan, Mary Fisher, Mike Shapley and Gary Moore.

The boys quartet which consists of Gary Moore, Larry Daniel, Terry Landrum and Jerry Landrum will perform along with a girls trio of Kay Nester, Armetha Lindley and Sheryl Pittard. Also on the program will be a duet by Davida and Armetha Lindley.

Pet Owners Get Rates

Canyon's pet owning families will have an opportunity May 3-4 to have their pets immunized against the dread disease of rabies at a reduced rate at Markham Veterinary Clinic.

All pets should be immunized as the vaccine is effective only for one year.

The clinic will be open both days from 8 a.m. until 6 p.m. Effective prices will be \$3 per animal vaccinated instead of the regular rate of \$4, according to Dr. J. L. Markham.

For expediency, Dr. Markham urges that all animals be on a leash or in a protective container.

"We hope that owners will have available their registration information and prepared checks for prompt handling of the animals," said Markham. Carrier containers for cats are available from the clinic.

to work the land.

"And then, in the Spanish-American war," he said, "Cuba traded Spanish colonialism for Yankee imperialism."

He blamed American exploitation and Batista dictatorship for a reaction that helped bring Castro into power.

"And Fidel was not a Communist to begin with," Reavis said, "but his economic planner, Ernesto 'Che' Guevara, was."

Communism has become a Cuban export to Latin-American countries especially, and Guevara was found shot to death in South America some months ago.

Economic measures under the Red regime, Reavis said, had provided meat, milk, fish, vegetables and other foods to many Cubans who had existed on sub-standard diet. He admitted there was rationing—such as two pounds of meat per person per week—but the people are eating better because, with rationing there is better distribution of food. Production has gone up.

(Since the Communists took over in 1959, the sugar crop, the main item in Cuba's foreign exchange, has repeatedly fallen below pre-revolutionary production.)

Reavis did not mention this, but went on to say that "they now make 52 flavors of ice cream, including tomato." In fact, he said, the main shortages were in mild tobacco for cigarettes and in chewing gum.

Hotel space is limited, too, but this is because "every worker is given a month's paid vacation and they rush to the resort hotels." Reavis explained that there is a system called "historical salary," which means that although a person is assigned to a lower-paid job he continues to receive the salary of his previous position.

"There is no unemployment," Reavis continued, "about 7 per cent of the people don't work, some because they don't want to work on the farms."

"Students go out on the farms to work, and the professors go to work with the students," he said.

(Several long-haired students in the Student Union Building here formed an "amen corner" on the front row of seats in the old faculty lounge, where Reavis spoke. Most of the questions came from the rear of the room, where about 15 members of the WTSU faculty sat.)

"Lots of profs left the country," Reavis went on. "Students run the universities. They would close down a university if the profs didn't do right." Some of his listeners in the front row glanced back toward the WTSU faculty members present.

Manual labor is considered a patriotic duty to build the economy, Reavis said. Even mothers go out in the field, and "free nurseries are provided for the children, which gets them out of the slums and unsanitary conditions."

And the peasants, the speaker said, are studying to be doctors, engineers, architects, etc.

Taxes have been abolished, he said. Some older rich people don't have to work because they have made enough to live on, he went on, and the mainstay of the party is the young intellectuals and the middle classes.

Even soft drinks have been equalized in the market place, Reavis added. "In the places where the poor man goes the drink sells for five cents, in places where the middle classes go the price is ten cents, and the places patronized by the rich charge twenty cents."

audience.

He said this country's presence is necessary because we have a commitment to South Viet Nam and because this country's first line of defense is along the perimeter of the Asian mainland.

"We are the only people on this planet who can help other people who want to live in freedom," the speaker went on.

Price pointed to the staggering national debt which he said would reach \$365 billions by July 1. He said the interest is \$14 billions annually. He said this country overspent \$20 billions last year, will overspend \$25 billions this year and will overspend \$35 billions next year.

"Our number one obligation is to our 500,000 men in Viet Nam," said Price. "We are going to have to put some priorities on our spending. No one owes anyone a living." Price said everything that the government does has to come out of taxes and somebody's work.

Price then threw the program open for questions and answers.

In answer to a question, he said he does not believe a tax raise is necessary. "I'm for a cut in our spending programs, especially on programs which can be put off," he said.

Asked about his nay vote on the recent civil rights bill, Price declared that he was particularly against the open housing clause. "A man should be able to own and dispose of property as he sees fit," the congressman asserted.

He drew prolonged applause when he said the open housing clause is unconstitutional and if this is to be changed the constitution should be changed.

He told his listeners that although he is for peace talks and peace, he was against cessation of bombing North Viet Nam and that he would support an all out military effort in Viet Nam.

He said the first thing that should be done in that effort is to close the North Viet Nam port of Haiphong. He said 85 percent of the weapons being used by the Viet Cong come through Haiphong principally from Russia.

ties appears this week. The percentage of increase appearing in the statute is also complied with. Final passage of the motion to increase the salary will be acted upon when the court meets in regular session at 1:30 p.m. April 29.

Original motion to raise the judge's salary follows:

"Commissioner Butler moved to raise the county judge's salary to the legal maximum under the law to become effective May 1, 1968." This motion was made and carried April 15.

The motion was corrected in the April 22nd meeting. Text of the correction is as follows:

"Commissioner Butler moved to raise the county judge's salary to \$10,200, the legal maximum under the law, to become effective May 1, 1968, that notice of two weeks be given as required by law."

WT Study Group Holds Meeting

Members of the Committee of 67, group preparing an objective study of West Texas State University, conducted a meeting Monday and voted to convene May 20 for what may be their last session.

Carl Periman, Amarillo chairman of the organization which is composed of 67 area business and professional representatives, said the group hoped to begin preparing a rough draft report from the 10 subcommittees at the May 20 meeting.

Each chairman and his committee was instructed Monday, Periman said, to review the findings of their past six meetings in order to formulate the rough sketch of recommendations that will later be submitted to the WTSU administration and to the Board of Regents.

"Some may not be finished by May 20," Periman explained, "but at the present time we don't plan to meet in the summer."

He said the group would probably attempt to make their final recommendations by the fall.

Periman said a concerted effort would be made to have as many of the 67 members as possible to the meeting in May.

will be judge at Gene Howe Elementary School.

The new building, if approved, will provide 34 teacher stations for the junior high school and will accommodate about 1,000 students.

Evaporative air conditioning for the elementary school will cost about \$63,000 while refrigerated air would cost about \$83,000. Although Clayton Shiver, Amarillo architect, recommended evaporative cooling for the elementary school, no decision has been reached.

In other action trustees said they would permit the seniors graduating this spring to decide where commencement exercises would be held.

Principal Hobart McDonald said some of the class favored the Canyon High School auditorium while others wanted to use the West Texas State University Fieldhouse.

McDonald also explained that a new school policy asking that students have Social Security numbers for registration processing was not mandatory.

Numbers, he said, were required for pre-registration because students were being processed through WTSU IBM computers.

If the students do not have Social Security numbers, some form of number will be assigned them, McDonald added.

Machines . . .

(Continued from Page 1)

Corder and manufactured by Datamedia of Binghamton, N.Y., has been approved on a trial basis only for the May 4 primaries.

To vote in the Vote-A-Corder system, the voter takes a ballot card and an envelope from an election official at the polls, goes to a booth and inserts the card in the machine, with the large holes at the top of the card fitted over posts on the machine.

A ballot booklet will already be on the machine, and the card fits into the machine so that a narrow strip of it shows to the right of the candidates' names.

The voter takes a stylus from the machine and punches a hole to the right of an arrow from the name of the candidate of his choice.

When the voter has completed the ballot booklet, he removes the card and puts it in an envelope, which has lines on the inside flap for write-in candidates.

The voter gives the envelope and card to the election official, who tears off the stub at the top of the card. The voter then drops his card and envelope into the sealed ballot box.

After the polls close May 4, the ballot boxes will be taken to the Killgore Research Center at West Texas State University, where the cards will be processed through the computer.

Voters must vote where they live, Hutton said, and everyone who plans to cast a ballot must be listed on the voter registration list.

Anyone who has lived in the county less than six months must vote an absentee ballot at the clerk's office.

CO-CAPTAINS for the Buffalo football team for the past season are Jimmy Campbell, left, and Dan Andrews.

WINNERS of the coveted Kleinschmidt Award for most valuable players were, left, Simmie Hill (basketball) and, right, Dave Szymakowski (football). Center is Wes Kleinschmidt, who originated the award in 1936.

Canyon chapter of the American Association of University Women met Saturday for a regular business meeting and dessert.

Refreshments were served to about 25 by Mesdames Frank Daugherty, Cecil Winn, Lee Harrington and Dan Sanders. The desserts preceded the business meeting.

The drama study group was in charge of the program and presented a play "The Bald Soprano" by Eugene Ionesco. First produced in 1950, the anti-play broke all rules of conventional dramatic form. Ionesco wrote the play when he was struck by absurdity of sentences he was memorizing while studying an English primer. The play, about nothing, shows natural talk from the emptiness of daily life.

Next meeting for the AAUW chapter will be a salad luncheon May 18. Members are requested to meet in front of Rex Reeves Elementary School at noon and will depart together at 12:15 noon to go to the home of Mrs. Linnie Harter.

Woman's Son Saves Sailor

Seaman Johnny L. Wozencraft helped to rescue a sailor from the sea while serving aboard the destroyer USS Uhlmann in the Western Pacific.

Wozencraft is the son of Mrs. R. O. Mabery of Canyon.

The sailor had fallen overboard from the aircraft carrier Bon Homme Richard during a night exercise. The USS Uhlmann altered course to come alongside the struggling sailor and Wozencraft of the San Diego based destroyer went over the side to bring the exhausted seaman aboard.

The bride is the daughter of Mr. and Mrs. Ray Gerber of Umbarger. Parents of the bridegroom are Mr. and Mrs. Wayne Sanford of Canyon.

Monsignor Matthew Schafle officiated at the ceremony. Traditional wedding music and songs were presented by the senior choir with Mrs. Vincent Raemakers of Umbarger presiding at the organ.

Traditional Easter lilies banked the altars of the church and bench markers were used for the first three rows in the church.

For her wedding, the bride wore a floor length gown of bonded white crepe with wrist length sleeves. The sleeve edges, neckline and front of the gown featured iridescent bridal beading and sequins. The gown was accented with a train of blue-white lace attached at the shoulders. Her veil of bridal illusion tiers was held to a lace and pearl crown. Her bouquet was a cascade of miniature white roses. The bride's mother made the wedding gown and dresses for the bridal attend-

ants. The bridal attendants were dressed identically in lime-chartreuse cage street-length dresses featuring a darker lime green lace train attached at the shoulders with half bows encircling the back neckline. The dresses, which had 3/4 length sleeves, were made of bonded crepe and their headpieces were of matching material. White

gloves and accessories complemented the dresses and each carried a long stemmed dahlia, backed with greenery.

Honor attendants were Marilyn Gerber, sister of the bride as maid of honor. Sharon Presley, sister of the bridegroom, was bridesmaid and Pam Sanford and Vickie Jo Gerber, sisters of the couple, were junior bridesmaids. Flower girl was Lynette Gerber, cousin of the bride.

Umbarger Parish Hall was used for the reception luncheon. The main table was decorated with a three-tiered wedding cake and accented with the bouquets of the bridal attendants.

For a wedding trip to Fayetteville, North Carolina, the bride changed to a yellow dress with lime coat and yellow accessories. Her white corsage was accented with lime trim.

The couple will be at home in Fayetteville, North Carolina where the bridegroom will continue classes at Fort Bragg. He is taking special forces training there. He graduated from Canyon High School in 1966 and joined the service in July 1967.

R NEW POSITIVE DRUGS
REPLACING OLDTIMERS

Each new year has brought us new drugs which differ greatly from the guesswork ingredients of past years. It is difficult to realize that less than a hundred years ago, you could count on your fingers the known drugs which could be depended upon to give a positive medical result.

Now the multi-ingredient, hope they work, mixtures are rapidly disappearing. We have single ingredient medicines which can positively cause a desired result. We have drugs which raise or lower blood pressure. Others permit a diabetic to live a normal life. We can fill any prescription.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound and dispense yours?

**NEW! For clean Sorghum...
spray weeds when you see them!
with BANVEL®**

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessweed (pigweed), sunflower, lambs-quarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then spray—all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is sprayed onto weed leaves and translocates to the roots...for new, total control of weeds. Just apply Banvel between the 10th and 25th day after emergence of grain sorghum (approximately 4 to 12 inches tall).

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed. See your dealer today. You'll be glad you did!
